

HP Blades Day (Day 1)

HP Blades Day (Day 1)

Trending Words

#hpbladesday, rt, hp, -, blades, tech, day, power, @kevin_houston:, infrastructure, blade, bladesystem, connect, software, virtual

Event Participants

RT @Knieriemen: @dmacvittie this is very educational and HP has a compelling story on blades - #hpbladesday - I agree!

25-Feb-10 22:59 | fowen

1.046 Uh Oh. This means @johnobeto is technical.... (wearing a white coat) #hpbladesday

25-Feb-10 22:59 | chrismevans

1.045 OK, consensus is that techies should have *white* lab coats and beards. #hpbladesday

25-Feb-10 22:58 | chrismevans

@dmacvittie this is very educational and HP has a compelling story on blades - #hpbladesday

25-Feb-10 22:58 | Knieriemen

RT @chrismevans: 1.044 I'm wondering if a statement made by a techie in a blue lab coat <- no, most authority=white coat surely #hpbladesday

25-Feb-10 22:55 | alextangent

RT @BladeNews: RT @Knieriemen: Dissecting blades at #hpbladesday <http://yfrog.com/1d9f0zj> <- Now officially jealous. Hope you're having fun!

25-Feb-10 22:55 | dmacvittie

RT @chrismevans: 1.044 I'm wondering if a statement made by a techie in a blue lab coat carries more weight than someone in civvies? #hpbladesday

25-Feb-10 22:55 | kevin_houston

@mfratto No, they laughed... can't test something not here yet #hpbladesday

25-Feb-10 22:55 | Knieriemen

RT @Knieriemen: Dissecting blades at #hpbladesday <http://yfrog.com/1d9f0zj>

25-Feb-10 22:53 | BladeNews

1.044 I'm wondering if a statement made by a techie in a blue lab coat carries more weight than someone in civvies? #hpbladesday

25-Feb-10 22:53 | chrismevans

RT @chrismevans: 1.043 Learning SO many tiny hardware features that overall add up to significant differences #hpbladesday

25-Feb-10 22:53 | BladeNews

@chrismevans discusses storage, virtualization and social networking on his blog. Visit him <http://bit.ly/nl6L> #HPBladesDay

25-Feb-10 22:50 | BladeNews

@fowen Yes - a 10Gb, a CNA and a virtual adapter. Cisco doesn't have anything "on the motherboard" though. #hpbladesday

25-Feb-10 22:50 | kevin_houston

@kevin_houston Cisco allows for Dual 10G Nics? I should have been more clear in my tweet. #hpbladesday

25-Feb-10 22:48 | fowen

Front of Cisco UCS at #hpbladesday <http://yfrog.com/33eynzj>

25-Feb-10 22:44 | Knieriemen

1.043 Learning SO many tiny hardware features that overall add up to significant differences #hpbladesday

25-Feb-10 22:36 | chrismevans

Dell's M1000 blade chassis has the blade connector pins on the server side. This causes a lot of issues as pins bend #hpbladesday #epicfail

25-Feb-10 22:35 | kevin_houston

@kevin_houston You can talk to us, we won't tell! #hpbladesday

25-Feb-10 22:34 | h0bbel

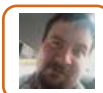

RT @fowen: HP Insight Orchestration Designer can be used in any browser that supports flash (officially supported in FF and IE). #HPBladesDay

25-Feb-10 22:34 | DonRSmith

1.042 Just realised I can't tweet and video at the same time... #hpbladesday

25-Feb-10 22:33 | chrismevans

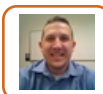

@kevin_houston Speak your mind! #hpbladesday

25-Feb-10 22:32 | fowen

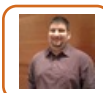

listening to gary thome talk about blades vs. the competition, and watching the bloggers film it all...way cool #hpbladesday

25-Feb-10 22:32 | gilletteathp

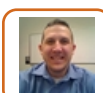

I'm going to have to bite my tongue on this competitive discussion between blade vendors... #hpbladesday

25-Feb-10 22:31 | kevin_houston

Aren't we all :-) RT @DellServerGeek: I'm stalking/spying/watching/listening to @kevin_houston's tweets on #hpbladesday

25-Feb-10 22:29 | DennisMSmith

Mentioning HP's presence in Gartner's Magic Quadrant (see my previous post on this here) --> <http://tinyurl.com/ydbsnan> #HPBladesDay

25-Feb-10 22:29 | kevin_houston

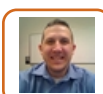

Visiting the Blades Lab at HP Blades Tech Day #hpbladesday - Eye on Blades Blog: Trends in Infrastructure - <http://ow.ly/1bntp>

25-Feb-10 22:29 | Connect_WW

I'm stalking/spying/watching/listening to @kevin_houston's tweets on #hpbladesday

25-Feb-10 22:27 | dellservergeek

Fun - now we get to hear how HP blades are better than IBM, Cisco and Dell #hpbladesday

25-Feb-10 22:26 | kevin_houston

EyeOnBlades Visiting the Blades Lab at HP Blades Tech Day (#hpbladesday) <http://ow.ly/16FbzW>

25-Feb-10 22:26 | qfisher

1.040 - We're in the hardware lab again and we've got an engineer in. You can tell that - he's wearing a blue lab coat. #hpbladesday

25-Feb-10 22:25 | chrismevans

RT @chrismevans: 1.039 Here's what I mean about stg short change - high avail, sync replication, DR, etc #hpbladesday <- netapp rulz MORE!

25-Feb-10 22:16 | alextangent

@chrismevans ...especially since server and network admins have to acquire storage expertise and vice versa. What do you think? #hpbladesday

25-Feb-10 22:15 | johnobeto

1.039 Here's what I mean about stg short change - high availability, sync replication, DR, etc #hpbladesday

25-Feb-10 22:14 | chrismevans

@johnobeto Seems that the Infrastructure is Converged only after storage is pre configured #HPBladesDay

25-Feb-10 22:14 | rbrambley

1.038 The hw & sw content so far is nagging me to review last @gestaltit day preso from MDSMicro/Xsigo/VMware - compare? #hpbladesday

25-Feb-10 22:13 | chrismevans

RT @chrismevans: 1.037 OK, I have a storage bias, but I think storage is starting to get short changed in the virtual world. #hpbladesday

25-Feb-10 22:13 | sfoskett

@chrismevans Personally, I think the converged data center has to go through one more rev before storage is fully melded in... #hpbladesday

25-Feb-10 22:13 | johnobeto

RT @chrismevans: 1.037 I think storage is starting to get short changed in the virtual world. #hpbladesday <- netapp rulz!

25-Feb-10 22:12 | alextangent

the whole #hpbladesday room <http://is.gd/9bDh5>

25-Feb-10 22:12 | rbrambley

@zaxstor Yes, orchestration software looking good so far. Think storage isn't fully appreciated though. #hpbladesday

25-Feb-10 22:10 | chrismevans

RT @johnobeto: RT @SFoskett: This morning's #HPBladesDay network outage was caused by too many @mobilehotspot in one room

25-Feb-10 22:09 | qfisher

1.037 OK, I have a storage bias, but I think storage is starting to get short changed in the virtual world. #hpbladesday

25-Feb-10 22:09 | chrismevans

CONNECT with the HP blade community #HPBladesDay <http://bit.ly/bFQAw1>

25-Feb-10 22:08 | HPEB_PR

a lot of video has been shot today by #hpbladesday attendees <http://is.gd/9bCnt>

25-Feb-10 22:08 | rbrambley

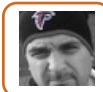

RT @PoppAtHP: RT @johnobeto: RT @SFoskett: This morning's #HPBladesDay network outage was caused by too many @mobilehotspot in one room

25-Feb-10 22:07 | BladeNews

RT @johnobeto: RT @SFoskett: This morning's #HPBladesDay network outage was caused by too many @mobilehotspot in one room - tnx for the info

25-Feb-10 22:02 | PoppAtHP

RT @chrismevans @rbrambley If Laurence Fishburn walks I'm heading for the door> If Trinity shows up I'm not going anywhere #hpbladesday

25-Feb-10 22:01 | rbrambley

RT @PoppAtHP: Just got Dan Bowers blog, his report from first 1/2 day: live from HP Blades Tech Day #hpbladesday <http://bit.ly/br0EvZ> tnx for the info

25-Feb-10 22:00 | gerryvz

RT @chrismevans: 1.035 HP Matrix sets the foundation for enabling "self-service" provisioning of virtual environments #hpbladesday

25-Feb-10 22:00 | alyson_griffin

1.036 Where would Matrix be used? I think large organisations & hosting companies. #hpbladesday

25-Feb-10 21:59 | chrismevans

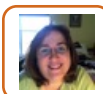

1.035 HP Matrix sets the foundation for enabling "self-service" provisioning of virtual environments #hpbladesday

25-Feb-10 21:59 | chrismevans

Finally hit a breather to check out all of the twactivity emanating from #HPBladesDay

25-Feb-10 21:58 | gerryvz

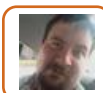

RT @johnobeto: RT @SFoskett: This morning's #HPBladesDay network outage was caused by too many @mobilehotspot in one room

25-Feb-10 21:56 | beccataylor

Insight Orchestration Designer has all the hallmarks of being a capable rapid deployment tool. #hpbladesday

25-Feb-10 21:56 | johnobeto

HP Insight Orchestration Designer can be used in any browser that supports flash (officially supported in FF and IE). #HPBladesDay

25-Feb-10 21:54 | fowen

RT @chrismevans: 1.032 Matrix simplifying network configuration - which is good. How about storage/WWNs? #hpbladesday <http://ow.ly/1bml3>

25-Feb-10 21:54 | HP_NonSTOP

RT @chrismevans: 1.032 Matrix simplifying network configuration - which is good. How about storage/WWNs? #hpbladesday <http://ow.ly/1bml3>

25-Feb-10 21:54 | Connect_WW

1.034 HP Matrix website has a number of pre-defined real world templates for server provisioning #hpbladesday

25-Feb-10 21:53 | chrismevans

HP Insight allows you to use your current CMS, e.g. Microsoft System Center to manage your datacenter #hpbladesday

25-Feb-10 21:53 | johnobeto

1.033 Matrix offers some pre & post workflow features to integrate to existing processes. Impl. workflow is notoriously hard #hpbladesday

25-Feb-10 21:51 | chrismevans

@rbrambley If Laurence Fishburn walks in wearing a long leather coat, I'm heading for the door... #hpbladesday

25-Feb-10 21:39 | chrismevans

RT @chrismevans RT @rbrambley: #HPBladesDay It's not the internet now. We're in the matrix. > Follow the white rabbit

25-Feb-10 21:38 | rbrambley

RT @SFoskett: This morning's #HPBladesDay network outage was caused by too many @mobilehotspot in one room - @johnobeto and I love 'em!

25-Feb-10 21:38 | johnobeto

1.031 - Expecting to see cascading green screen lettering in this Matrix demo.... #hpbladesday

25-Feb-10 21:38 | chrismevans

@johnobeto blogs about MSFT Windows and supporting technologies. Check it out <http://bit.ly/1baPc> #HPBladesDay

25-Feb-10 21:37 | BladeNews

RT @rbrambley: OMG! I am actually connected to the Internet again .. #HPBladesDay It's not the internet now. We're in the matrix.

25-Feb-10 21:37 | chrismevans

OMG! I am actually connected to the Internet again .. what's changed since I left? #HPBladesDay

25-Feb-10 21:36 | rbrambley

1.030 Now in a discussion on HP BladeServer Matrix #hpbladesday

25-Feb-10 21:33 | chrismevans

RT @kevin_houston: Brian Jacquol and Ute Albert are demo'ing the HP BladeSystem Matrix #hpbladesday <http://ow.ly/1bmia>

25-Feb-10 20:02 | elipaschoalin

HP doesnt have a single unified management tool to manage converged infra, management tools for servers, storage, fabric #hpbladesday

25-Feb-10 20:00 | storagerverve

Tune in to HP's Eye on Blades Blog to learn the latest about what's going on at HP's Tech Day #HPBladesDay <http://bit.ly/brpBpk>

25-Feb-10 20:00 | HPEB_PR

1.028 How much of the power savings development have been driven by PG&E's issues in California? #hpbladesday

25-Feb-10 19:59 | chrismevans

1.027 Data Center Power Control - allows non-critical equipment to be sacrificed for critical in case of eqpt failure #hpbladesday

25-Feb-10 19:58 | chrismevans

1.026 Power Capping can be prioritised. HP suggest power could be reduced by 15-20% per rack by purely doing efficient mgmt #hpbladesday

25-Feb-10 19:56 | chrismevans

RT @kevin_houston: HP's published "Virtual Connect for Dummies" Free copy <http://tinyurl.com/yhubgld> #HPBladesDay <-you'll need it! VC is...

25-Feb-10 19:55 | etherealmind

1.025 And one answer is - Power Capping - set a max limit of kit in the rack #hpbladesday

25-Feb-10 19:50 | chrismevans

RT @chrismevans: 1.021 So HP equipment can determine it's own power requirements at peak. Mgmt console can the aggregate this #hpbladesday

25-Feb-10 19:50 | BladeNews

1.022 Looks like HP Systems Insight Manager uses Java/browser. My pet hate.... #hpbladesday

25-Feb-10 19:44 | chrismevans

1.021 So HP equipment can determine it's own power requirements at peak. Mgmt console can the aggregate this #hpbladesday

25-Feb-10 19:43 | chrismevans

@fowen has a blog called TechVirtuoso. Check out his recent posts <http://bit.ly/20JUee> #HPBladesDay

25-Feb-10 19:43 | BladeNews

1.020 Easy to over or underestimate power requirements per rack. #hpbladesday

25-Feb-10 19:42 | chrismevans

Apparently "The world's most efficient fan" is an HP blade server component, not @StorageNerve!
#HPBladesDay <http://twitpic.com/15aojm>

25-Feb-10 19:42 | sfoskett

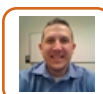

RT @SFoskett @Knieriemen shouldn't have let his pet ferret loose in HP's blade chassis... #HPBladesDay
<http://twitpic.com/15anyp> <-nice

25-Feb-10 19:42 | Knieriemen

1.019 - Many servers on SpecSFS site show 3-4 times more power usage at peak compared to idle
#hpbladesday

25-Feb-10 19:41 | chrismevans

4 fan zones in a HP BladeSystem allows for fans to spin at different rates. - controlled by the Onboard Administrator #HPBladesDay

25-Feb-10 19:41 | kevin_houston

1.018 So, if you measure at the idle time, or busy time, you don't accurately reflect power usage. #hpbladesday

25-Feb-10 19:41 | chrismevans

RT @kevin_houston: Check out the HP SB40c Storage Blade with the cover off : <http://tinyurl.com/yj6xode>

<http://tinyurl.com/y132xud> #hpbladesday

25-Feb-10 16:14 | BladeNews

HP went to look for an AT&T 3G card because apparently Sprint doesn't work well in this building... #HPBladesDay

25-Feb-10 16:14 | sfoskett

RT @Knieriemen: Frustrated by lack of Internet access at #hpbladesday

25-Feb-10 16:13 | fowen

RT @kevin_houston: discussed how HP blades were used in Avatar (see my post on this here)-->
<http://bit.ly/bCTSxe> #hpbladesday

25-Feb-10 16:13 | HPStorageGuy

RT @Knieriemen: Frustrated by lack of Internet access at #hpbladesday I thought Foskett the hacker was there hacking a solution together

25-Feb-10 16:11 | 3parfarley

I was the official snarky comment provider! RT @chrismevans: Does everyone claim to provide infrastructure for Avatar? #hpbladesday

25-Feb-10 16:10 | sfoskett

@martinmacleod is a blade pro! Stay tuned in to his blog, BladeWatch <http://bit.ly/5Blk1B> #HPBladesDay

25-Feb-10 16:09 | BladeNews

#HPBladesDay What about all of the ProCurve units on the table? A link to nowhere?

25-Feb-10 15:57 | RickVanover

RT @johnobeto: Converged Infrastructure extends virtualization from the datacenter to the desktop, allowing for the virtualization of desktops #hpbladesday

25-Feb-10 15:51 | GeeksRoom

RT @SFoskett: Suddenly Sprint 3G failed the crew at #HPBladesDay - no Internet, no blogging! < @bradhedlund any ?'s re: blogger \$\$;)

25-Feb-10 15:51 | Beaker

HP does not allow guest wireless so we're relying on Cradlepoints that aren't working. Not insuring bloggers have wi-fi: FAIL #hpbladesday

25-Feb-10 15:48 | kevin_houston

RT @SFoskett: Suddenly Sprint 3G failed the crew at #HPBladesDay - no Internet, no blogging! <-yikes!

25-Feb-10 15:45 | djenningspr

RT @gilletteathp: listening to gary thome address some awesome bloggers #hpbladesday

25-Feb-10 15:45 | bcboone

HP really emphasizing the importance around converged infrastructure and focused heavily in that direction #hpbladesday

25-Feb-10 15:43 | storagenerve

@Kiwi_Si writes about all things virtualization. Check out Simon's blog at <http://bit.ly/swP3a> #HPBladesDay

25-Feb-10 15:41 | BladeNews

Converged Infrastructure extends virtualization from the datacenter to the desktop, allowing for the virtualization of desktops #hpbladesday

25-Feb-10 15:41 | johnobeto

Having internet issues at #hpbladesday, hope this is all figured out in a few, can't tweet

25-Feb-10 15:41 | storagenerve

Suddenly Sprint 3G failed the crew at #HPBladesDay - no Internet, no blogging!

25-Feb-10 15:40 | sfoskett

1.009 - OK Gary finishing up on the overview presentation. Can we post link to this? #hpbladesday

25-Feb-10 15:40 | chrismevans

RT @kevin_houston: VROOM; - Virtualized, Resilient, Orchestrated, Optimized, Modular: HP's Converged Infrastructure strategy #hpbladesday

25-Feb-10 15:38 | ProLiant

RT @PoppAtHP: RT @HPStorageGuy: New post on our #HPBladesDay that is now kicked off. <http://bit.ly/a40sdL> #IN

25-Feb-10 15:37 | BladeNews

Would love to see some pics posted of #HPBladesDay as it unfolds !!

25-Feb-10 15:37 | gerryvz

1.007 - Hmm, blades for virtual desktops - yet to be convinced on the real benefit of VDI #hpbladesday

25-Feb-10 15:28 | chrismevans

A blade rack with virtual LAN, SAN, and storage arrays is a much more compelling private cloud than a pile of conventional gear #HPBladesDay

25-Feb-10 15:27 | sfoskett

HP's Virtual Client Infra. Solutions design allows you to build "bricks" of servers and storage to serve 1000's of virtual PCs #HPBladesDay

25-Feb-10 15:27 | kevin_houston

@johnobeto Agreed - power benefits not totally clear. That's deep dive issue #hpbladesday

25-Feb-10 15:26 | chrismevans

@johnobeto I'm really looking forward to the Virtual Power over Wireless Ethernet announcement at #HPBladesDay

25-Feb-10 15:26 | sfoskett

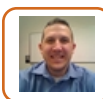

1.006 - Power efficiency - \$25,000 for KW over the lifetime of a DC. Power efficiency obviously important for cost control #hpbladesday

25-Feb-10 15:25 | chrismevans

Power capping is built into HP hardware (it's not in the software.) #HPBladesDay

25-Feb-10 15:25 | kevin_houston

Power Capping is a key technology in the HP Thermal Logic design. #HPBladesDay

25-Feb-10 15:25 | kevin_houston

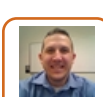

New to me: Virtualized Power. What is this virtualized power of which he speaks? More information is need... #hpbladesday

25-Feb-10 15:24 | johnobeto

HP Power Capping allows you to specify how much power is used on a power circuit. Control this = savings. #HPBladesDay

25-Feb-10 15:23 | Kiwi_Si

HP's Thermal Logic technology allows you to actively manage power overtime. #HPBladesDay

25-Feb-10 15:22 | kevin_houston

1.005 - BladeSystem Matrix - first announced June 2006 #hpbladesday

25-Feb-10 15:21 | chrismevans

1.004 - 4 layers to Infrastructure Operating Environment; management;fabric;resources;datacentre #hpbladesday

25-Feb-10 15:20 | chrismevans

Virtual desktops is an emerging market where HP BladeSystems fit well. #HPBladesDay

25-Feb-10 15:20 | kevin_houston

HP BladeSystems commonly seen in 'Massive Scale Out & High Performance Computing (HPC)' implementations. #HPBladesDay

25-Feb-10 15:20 | Kiwi_Si

A modular approach to building a 'Converged Infrastructure' means a business can add to it as required or budget allows #HPBladesDay

25-Feb-10 15:16 | Kiwi_Si

Now talking about the HP Converged Infrastructure (I posted about this here)--><http://tinyurl.com/ydnlebq> #HpBladesDay

25-Feb-10 15:15 | kevin_houston

RT @kevin_houston: A Modular architecture allows you to adopt Technology 1 then later technology 2, etc. #hpbladesday

25-Feb-10 15:15 | Connect_WW

HP's Infrastructure Operating Environment "binds converged infrastructure elements together" - is it The One Ring? #HPBladesDay

25-Feb-10 15:14 | sfoskett

RT @kevin_houston: "VROOM" - Virtualized, Resilient, Orchestrated, Optimized, Modular: HP's Converged Infrastructure strategy #hpbladesday

25-Feb-10 15:14 | BladeNews

RT @twapperkeeperR5: TwapperKeeper archive for hashtag #hpbladesday created by @storagenerve -> <http://twapperkeeper.com/hpbladesday>

25-Feb-10 15:12 | storagenerve

A Modular architecture allows you to adopt Technology 1 then later technology 2, etc. #hpbladesday

25-Feb-10 15:12 | kevin_houston

RT @chrismevans: 1.002 - Now being presented to by Gary Thome on ISB overview. #hpbladesday

25-Feb-10 15:12 | Connect_WW

The meeting of the minds: HP execs meet with key bloggers at ISB Tech Day in Houston #HPBladesDay

25-Feb-10 15:11 | BladeNews

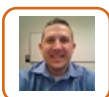

RT @kevin_houston: Gary Thome - Chief Strategist for HP Infrastructure Software and Blades now kicking off #HPBladesDay

25-Feb-10 15:11 | Connect_WW

RT @kevin_houston: #HPBladesDay opens with showing of HP BladeSystem for Cowboys stadium (link: <http://tinyurl.com/yeo6ovu>)

25-Feb-10 15:11 | Connect_WW

Currently "orchestration" happens in servers or storage domains, but HP's strategy is to have Orchestration across all domains #hpbladesday

25-Feb-10 15:11 | kevin_houston

Gary Thorne, VP, is addressing the room #hpbladesday

25-Feb-10 15:11 | johnobeto

RT @chrismevans: 1.002 - Now being presented to by Gary Thome on ISB overview. #hpbladesday

25-Feb-10 15:11 | Knieriemen

RT @kevin_houston: yay - we have permission to live blog from HP #HPBladesDay

25-Feb-10 15:10 | Connect_WW
