Speaking of VDI, here's VMware written paper with P4000 (HP LeftHand): <http://bit.ly/VcBIT> and a podcast: <http://bit.ly/Dom3W> #HPBladesDay

26-Feb-10 15:37 | HPStorageGuy

2.007 - I think my kids are about to lose their desktop machines - going to move them to VDI next week. #hpbladesday

26-Feb-10 15:36 | chrismevans

TGIF!! #HPBladesDay wireless working like a charm.

26-Feb-10 15:36 | beccataylor

@sfoskett @fowen Which is fair enough - the benefit is less tangible than pure hardware. Need to understand soft costs #hpbladesday

26-Feb-10 15:35 | chrismevans

HP: Maximum number clients per Desktop Virtualization server/blades quoted are not always accurate. #HPBladesDay

26-Feb-10 15:34 | Kiwi\_Si

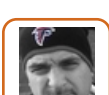

@chrismevans I think they are trying to make the point it is not cheaper to roll out but has more benefits & lower overhead. #hpbladesday

26-Feb-10 15:33 | fowen

At least they're honest! RT @chrismevans: 2.006 Did I understand HP's position - client virtualisation is not a cost benefit? #hpbladesday

26-Feb-10 15:32 | sfoskett

Surprise! HP is working on VDI reference architecture too #HPBladesDay <http://is.gd/9f9wa>

26-Feb-10 15:31 | rbrambley

HP handles Desktop Virtualization (VDI) "end to end" #HPBladesDay - RUBBISH!!! No one can do it end-to-end... FUD!!!

26-Feb-10 15:28 | stuiesav

RT @BladeNews: Why HP for Client Virtualization? complete portfolio, tech & mkt leader, leading partner, extensive services, proven solutions #HPBladesDay

26-Feb-10 15:26 | johnobeto

Following tweet peeps at #HPBladesDay wish I was there to hear Joseph George on VDI. He's the man on the topic.

26-Feb-10 15:25 | PoppAtHP

Why HP for Client Virtualization? complete portfolio, tech & mkt leader, leading partner, extensive services, proven solutions #HPBladesDay

26-Feb-10 15:24 | BladeNews

RT @fowen: HP handles Desktop Virtualization (VDI) "end to end" whn it comes to hardware. Fits well with their converged infrastructure. #HPBladesDay

26-Feb-10 15:24 | johnobeto

My First #FF #hpbladesday @sfoskett @rbrambley @chrismevans @kiwi\_si @johnobeto @martinmacleod @storagenere @knieriemen @kevin\_houston

26-Feb-10 15:24 | fowen

Looking fwd to the #HPBladesDay tour of the server assembly line here on the HP Houston campus. Don't get over to that building often...

26-Feb-10 15:23 | gerryvz

I agree, also clients, servers-> RT @gilletteathp: only hp can offer a seamless, end to end client virtualization/vdi solution. #hpbladesday

26-Feb-10 15:22 | johnobeto

RT @kevin\_houston: HP's published "Virtual Connect for Dummies" Free copy <http://tinyurl.com/yhubgld> #HPBladesDay <-you'll need it! VC is...

25-Feb-10 19:55 | etherealmind

1.025 And one answer is - Power Capping - set a max limit of kit in the rack #hpbladesday

25-Feb-10 19:50 | chrismevans

RT @chrismevans: 1.021 So HP equipment can determine it's own power requirements at peak. Mgmt console can the aggregate this #hpbladesday

25-Feb-10 19:50 | BladeNews

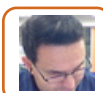

RT @SFoskett: "The world's most efficient fan" is an HP blade server component <- naw, this is <http://bit.ly/9zeOUH> #HPBladesDay

25-Feb-10 19:50 | alextangent

1.024 Hmm, possible flaw - can't see the power capacity of a rack until the equipment is installed in it? #hpbladesday

25-Feb-10 19:49 | chrismevans

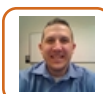

@chrismevans As if they ever would !! Cold dead hands, Daddy knows best and arrogant know-it-alls :) #HPBladesDay

25-Feb-10 19:49 | etherealmind

1.023 Now looking at Insight Manager showing max potential load (Calibrated Max Power) for an enclosure #hpbladesday

25-Feb-10 19:48 | chrismevans

23 power "steppings" on each BladeSystem fan #HPBladesDay

25-Feb-10 19:45 | kevin\_houston

1.022 Looks like HP Systems Insight Manager uses Java/browser. My pet hate.... #hpbladesday

25-Feb-10 19:44 | chrismevans

1.021 So HP equipment can determine it's own power requirements at peak. Mgmt console can the aggregate this #hpbladesday

25-Feb-10 19:43 | chrismevans

@fowen has a blog called TechVirtuoso. Check out his recent posts <http://bit.ly/20JUee> #HPBladesDay

25-Feb-10 19:43 | BladeNews

1.020 Easy to over or underestimate power requirements per rack. #hpbladesday

25-Feb-10 19:42 | chrismevans

Apparently "The world's most efficient fan" is an HP blade server component, not @StorageNerve! #HPBladesDay <http://twitpic.com/15aojm>

25-Feb-10 19:42 | sfoskett

RT @SFoskett @Knieriemen shouldn't have let his pet ferret loose in HP's blade chassis... #HPBladesDay <http://twitpic.com/15anyp> <-nice

25-Feb-10 19:42 | Knieriemen

1.019 - Many servers on SpecSFS site show 3-4 times more power usage at peak compared to idle #hpbladesday

25-Feb-10 19:41 | chrismevans

1.017 - How do you measure power in a rack? Plug an ammeter onto it? What if the servers are idle? #hpbladesday

25-Feb-10 19:39 | chrismevans

RT @HPStorageGuy: If you're following #HPBladesDay, the group has split in two; one is getting management software demo, other BladeSystem/Matrix lab

25-Feb-10 19:39 | jtroyer

In HP Blades, the ground "plug" is always longest connector on any hot-pluggable device - VERY Smart #HPBladesDay

25-Feb-10 19:39 | fowen

@Knieriemen shouldn't have let his pet ferret loose in HP's blade chassis... #HPBladesDay <http://twitpic.com/15anyp>
